

Monsoon EV2 Stop Plug - 1/2 - Matte Black

\$4.55

Product Images

Short Description

Monsoon fitting plugs are for builders tired of the “same old same old” look of typical stop plugs.

Description

Monsoon fitting plugs are for builders tired of the “same old same old” look of typical stop plugs. As the name implies, they are Fitting Plugs in that they work just like a stop plug, but look exactly like any of our full line of compression fittings for hard or soft tube.

Available to exactly match our Free Center, Chain Gun, or EV2 fittings and in all of our sizes and colors.

Installation:

Just install the stop plug as you normally would using a coin to tighten. Then simply screw on the compression ring and you are done
