Short Description

be quiet! Dark Base Pro 900: unrivaled flexibility with impeccable cooling and silence features. It was designed for high-end enthusiasts and individualists – all of those who expect the highest standards when it comes to modularity, compatibility and design for their high-end workstations as well as overclocked and silent water-cooled systems.

Description

Outstanding Flexibility and Silence

be quiet! Dark Base Pro 900: unrivaled flexibility with impeccable cooling and silence features. It was designed for high-end enthusiasts and individualists – all of those who expect the highest standards when it comes to modularity, compatibility and design for their high-end workstations as well as overclocked and silent water-cooled systems.

Dark Base Pro 900 has numerous modularity options to satisfy every desire with lots of features to support special configurations. Aluminum surfaces and steel offer highest stability with a look of extreme elegance. Simply an engineering work of art!

- Fully versatile thanks to modular construction, offering an relocatable motherboard tray, repositionable HDD slots, support for even E-ATX and XL-ATX as well as the possibility of an inverse layout
- Three pre-installed SilentWings® 3 140mm PWM fans featuring a smooth-running 6-pole motor, fluid-dynamic bearing and funnel-shaped air inlets
- Effective full circuit airflow system with innovative noise-reducing vents all around the case
- Completely sound insulated case with decoupled elements for motherboard, power supply and drives
- Four areas for water cooling radiators up to 420mm on top, front, back and base of the case
- Elegant, fully windowed side panel made of tinted and tempered glass
- Eye-catching LED illumination with five switchable colors that you can freely position in the case
- Integrated wireless charger for Qi enabled devices such as smart phones
- Product conception, design and quality control in Germany

Features

Applications:

- High-end workstations and desktop PCs
- High-resolution gaming and multimedia systems
- Extremely overclocked systems
- Super silent water-cooled PCs

Feature Details

Unrivaled Flexibility

- Motherboard tray with enhanced possibilities to suit individual space requirements
 - Completely relocatable and usable as a test bench
 - Adjustable to three different heights
 - Installation alongside the left panel for an inverted layout
- Repositionable HDD tray for individual space requirements inside the case
- E-ATX and XL-ATX support permits installation of practically any motherboard
- Installation options of up to 7 decoupled HDDs, 15 SSDs and 2 optical drives

Impeccable Cooling and Silence

- Three virtually inaudible SilentWings® 3 140mm PWM fans offer unrivaled and uncompromising performance with a broad range of amazing features:
 - 6-pole fan motor for very low power consumption and less vibration
 - Fluid-dynamic bearing with copper core enables a super long life span
 - Unique airflow-optimized fan blade design
 - Fan frame with funnel-shaped air inlets produces high air pressure
 - High quality IC motor controller reduces electrical noise

- Intelligent full circuit airflow system with noise-dampened vents all around the case
- Advanced PWM hub and manual fan controller supports up to four PWM and four 3-pin fans
- Installation of up to six additional 140mm fans or up to seven additional 120mm fans possible
- Ready for water cooling radiators up to 420mm with four mounting slots:
 - Front: 420mm – Top: 420mm – Back: 140mm – Base: 280mm
- Built-in insulation in front, top cover and side panels
- Decoupled motherboard tray, power supply tray and drive slots for reduced vibration and noise

Advanced Assembly and Handling

- Generous space thanks to repositionable single HDD slots
- Impressive features permit individual configurations and setups
- Customizable cable management thanks to carefully placed pass-throughs
- Two cleanable dust filters that can be conveniently removed from the front

High-quality Materials and Elegant Design

- Premium aluminum surfaces
- Steel parts from 0.8mm to 1.0mm for highest stability
- Compatibility with all be quiet! products and all available graphics cards
- RGB LED illumination with five switchable colors that can be freely positioned
- Wireless charger for Qi enabled devices (e.g. smart phones)
- Elegant side window of 4mm tinted and tempered glass

Outstanding Service and Support

- 3-year manufacturer's warranty
- Quick support is available via our international hotline, Mondays to Fridays from 9:00am to 5:30pm CET:
+49 (0) 40-736 76 86 - 98
