

EVGA PowerLink

\$29.99

Product Images

Short Description

The EVGA PowerLink has one primary function: to make your PC look even more awesome. This adapter allows you to reroute the power inputs for your graphics card, giving you improved case airflow, a lower profile height, and best of all, cleaner wiring setup. It even supports a unique configuration system allowing you to mix and match power input types to match your EVGA graphics card. The EVGA PowerLink is the best way to revolutionize your cable management.

Description

Revolutionized Cable Management
