Short Description

The Internal Power Distribution PCB 10xWay Block is the perfect organizational solution for hard core modder's, water cooling enthusiasts and other power users that use a large amount of cooling fans in their systems or servers.

Description

The Internal Power Distribution PCB 10xWay Block is the perfect organizational solution for hard core modder's, water cooling enthusiasts and other power users that use a large amount of cooling fans in their systems or servers.

Why use clumsy Y splitters that just add to cable clutter when you can have a clean point to distribute power to all your 4-pin fans? These small PCB's are made of the highest quality and include an easy to install preinstalled black mount rail and Velcro strip.

This allows you to mount virtually anywhere in your case including all those hidden places modder's like to route their cables to. For those that want the best look these have a black PCB and connectors. So, eliminate all those extra cables and install this 4-pin power distribution PCB to be a Pro!

Input Power: 4-Pin Fan PWM Port

Output Power: 10 x 4-Pin PWM Fan

PCB Adhesive Backing: Yes

Compatible with both 3-Pin / 4-Pin Fans
