# Phanteks Halos Lux Digital RGB Fan Frames 140mm - Black

**$21.99**

## Product Images

## Short Description

Crafted from a single block of aluminum, the new Phanteks Halos Lux Digital fan frames complements any premium system build with ambient illumination. Using high density LEDs (30 LED's) that are individually addressable, allows for more patterns and color modes with smooth transitions. Illuminate your performance fans with the Halos Lux Digital fan frames and bring style to your system without compromising performance. Now available in colors black and anthracite grey.

## Description

Crafted from a single block of aluminum, the new Phanteks Halos Lux Digital fan frames complements any premium system build with ambient illumination. Using high density LEDs (30 LED's) that are individually addressable, allows for more patterns and color modes with smooth transitions. Illuminate your performance fans with the Halos Lux Digital fan frames and bring style to your system without compromising performance. Now available in colors black and anthracite grey.

## Features

The Halos Lux Digital RGB fan frame is developed to illuminate fan blades from different varieties of material / color with a bright ambient glow. This means even high per formance fans made from PBT material, like Phanteks' MP and SP fans, can now be illuminated in any color. With the Halos Lux Digital there's no more compromise on per formance when RGB illuminated fans are desired.
