

ROCKIT COOL Copper IHS for LGA 1150 / 1155 - With Guide

\$19.99

Product Images

Short Description

This CNC machined Solid copper IHS is intended for Intel LGA 1150 & 1155 CPUs. Has a smooth surface for maximum contact.

Description

This CNC machined Solid copper IHS is intended for Intel LGA 1150 & 1155 CPUs. Has a smooth surface for maximum contact.

Features

- CNC machined to tight tolerances
- Available custom relid guide compatible with all Rockit 88 kits
- Surface area increased by 15% over stock
- Smooth and flat surfaces for maximum contact with CPU and cooling solutions.
- Fits LGA 1150 & 1155 ONLY!! Will not work for LGA 1151.
- Caution! Normal relid guide will not work with the copper IHS. It is larger than stock.

Specifications
