

# ROCKIT COOL Copper IHS for LGA 1151 - With Guide

\$19.99

## Product Images

## Short Description

This CNC machined Solid copper IHS is intended for Intel LGA 1151 CPUs. Has a smooth surface for maximum contact.

## Description

---

This CNC machined Solid copper IHS is intended for Intel LGA 1151 CPUs. Has a smooth surface for maximum contact.

## Features

---

- CNC machined to tight tolerances
- Available custom relid guide compatible with all Rockit 88 kits (Normal relid guide will NOT work for the copper IHS, it is larger than the stock IHS)
- Surface area increased by 15% over stock
- Smooth and flat surfaces for maximum contact with CPU and cooling solutions.
- Fits LGA 1151 ONLY!!! Can damage your CPU and/or motherboard if used on LGA 1150

## Specifications

---

### Preparation:

1. Supplies Needed:

### Delid Procedure:

1. Place CPU in tray
2. Close the Rockit 88
3. Delid with the Rockit 88

### Cleanup:

1. Cleaning off the CPU Die
2. Cleaning off the IHS Glue
3. Finishing Up

### Relid Procedure:

1. Place CPU in tray
2. Prepare Thermal Interface Material
3. Prepare Relid Tools
4. Place the Relid Alignment Tool
5. Glue IHS Into Place
6. Use The Relid Spyder
7. Finishing Relid Procedure

## Additional Information

---

Brand	Rockitcool
SKU	RC-CU-IHS-LGA1151-WG
Weight	0.7500
Color	Copper
Heatsink Type	CPU Heatsink
Compatibilty	Intel LGA 1151
Material	Copper
