Short Description

THE GREATEST FAN AIR FILTERS EVER DESIGNED!!! DEMCiflex 250mm Round Magnetic Fan Dust Filter

Description

THE GREATEST FAN AIR FILTERS EVER DESIGNED!!! Now available in a slick round pattern designed by Performance-Pcs.com!

This is a DEMCiflex 250 Large Fan Side Filter designed exclusively for **250mm Silent Case Fan w/ Trim Ring Bezels**. [Click Here to view Fan.](#)

The fan using this bezel is 220mm and the filter is made for these fans. These filter are magnetic and will attach themselves to the ferrous metal grill of these specific fans listed. No extra magnet is provided since this is made for a specific fan model.

DEMCiflex Computer Air Filter is the easiest of all Computer Air Filters to use. No need for any skills. No Glue, No Screws, No Tools and No Hassles. All you have to do is to locate your computer's air intake vents. Use a sheet of paper to see if any particular fan draws air into the case or blows it out. All inlet fans and un-fanned openings can be protected by DEMCiflex.

After cleaning out the unit initially maintenance consists of taking the DEMCifilter off by hand, dusting it off by hand or soft brush and replacing it over the air intake. That simple. No dismantling, no tools, no glue or screws needed. DEMCifilter has no moving parts and has a one-piece lightweight design. DEMCifilter is fitted over the fan intake or vent holes by way of magnetic strip built into the filter. Even if the case is non-metallic, a lightweight and flexible magnetic frame (optional extra) can be fitted to the case and DEMCifilter can be fitted onto it. This will extend the lifespan of the computer and lead to less downtime and an overall more enjoyable computer experience.

To maximize the benefits of DEMCiflex filters please refer to their page on [Positive Pressure](#) .
