Short Description

If you already own fans and other cables and accessories and would like to have it professionally sleeved by our company you can now arrange to send it in to us. This will keep you from having to spend money on all new hardware and cables.

Description

Custom Sleeving Service:

If you already own fans and other cables and accessories and would like to have it professionally sleeved by our company you can now arrange to send it in to us. This will keep you from having to spend money on all new hardware and cables. If any of you have ever attempted to do this work yourself then you will realize that it is not that easy and requires a number of special tools. We charge a very fair price of only \$4 to \$8 plus return shipping for each part that is sleeved and you can be assured all of this will be professionally done. This not only includes the labor but, also all materials.

You can also arrange to have anything sent in to our company to be sleeved in your choice of colors. This includes interior case wiring, fans, and accessory cables. Due to the unique nature of this service you will have to contact us via email to get a quote on the sleeve job. The choices on this page for accessories are for ordering but, we reserve the right to ask for additional funds if the

hardware sent in requires more work than we deem reasonable for the price paid. You can get more information on this by sending an email to the following address:

sales@performance-pcs.com

You can get and idea of shipping costs by calculating your shipment to the following address:

Performance PC's, Inc.
1701 Robert J. Conlan Blvd. NE, Unit #5
Palm Bay, FL 32905, USA

Please use email to contact us as we do not have phone support to deal with this service. After you place the order we will send you an RMA # and confirm the shipping address. If you do not receive this RMA# in 24 business hours please follow up by sending us an email.
