# Vantec GO - USB 2.0 PCI Card

Product Images

Short Description

Vantec presents high speed USB 2.0 PCI host card with 5 downstream ports. It supports transfer rate from 1.5 to up to 480 Mbps. It connects to multi devices such as scanner, printer, portable drive and other peripherals up to 127 devices. It is hot swappable and easy to install. Vantec USB 2.0 PCI card is an USB- IF certified PCI host card compliant with USB Specification Revision 2.0 products and fully compatible with USB 1.1. It supports Window 98 SE / ME / 2000 / XP.

Description

What is USB?

USB stands for Universal Serial Bus, which is able to connect more peripherals to the computers.

USB provides an expandable, hot-swappable Plug-n-Play serial interface that ensures a standard, low-cost connection for peripheral devices. Devices suitable for USB range from simple input devices such as keyboards, mice, and joysticks, to advanced devices such as printers, scanners, storage devices, modems, and video conferencing cameras. Migration to USB is recommended for all peripheral devices that use legacy ports such as the PS/2, serial, and parallel ports.

USB is the solution for any PC users who have ever dreamed about an instant, no-hassle way to connect a new digital joystick, a scanner, a set of digital speakers, a digital camera, or a PC telephone to their computer. It has the power to connect you with a whole new world of PC experiences.

What is USB 2.0?

USB 2.0 will support up to 480 Mbps for high-speed devices. USB 2.0 is suitable for high-performance devices such as high-quality video conferencing cameras, high-resolution scanners, and high-density storage devices. In addition, USB 2.0 supports old USB 1.0/1.1 software and peripherals, offering impressive and even better compatibility to customers.

Why Choose Vantec USB 2.0?

Vantec presents high speed USB 2.0 PCI host card with 5 downstream ports. It supports transfer rate from 1.5 to up to 480 Mbps. It connects to multi devices such as scanner, printer, portable drive and other peripherals up to 127 devices. It is hot swappable and easy to install. Vantec USB 2.0 PCI card is an USB- IF certified PCI host card compliant with USB Specification Revision 2.0 products and fully compatible with USB 1.1. It supports Window 98 SE / ME / 2000 / XP.

Features

Features:

- CE & FCC approved
- Compliant with OHCI Specification for USB Rev 1.0a
- Five downstream port can handle high-speed (480Mbps), full-speed (12Mbps) and low-speed (1.5Mbps)
- 32-bit 33Mhz host interface compliant to PCI Specification release 2.2
- Support PCI-Bus Power Management Interface Specification release1.1
- Support devices hot swap and wake-up

Specifications

Specifications:

- Compliant with USB Specification Revision 2.0

- Data transfer rate can be 1.5/12/480Mbps
- Support up to 127 devices
- 2 Port & 5 Port (4 external ports plus one internal port) are available.
- Support PC windows 98SE/ME/2000

Additional Information

Brand	Vantec
SKU	UGT-PC205
Weight	1.0000
Card Function	USB
Card Form Factor	PCI
Ports	4
Special Price	$2.99
