

Thermalright TG-8 Thermal Grease

\$12.99

Product Images

Short Description

Thermaltake high performance and reliable Thermal grease with diamond powder inside for best thermal conductivity, maximizing heat transfer by eliminating the air gap between the heat source and the heat sink caused by the irregular surfaces.

Description

Thermaltake high performance and reliable Thermal grease with diamond powder inside for best thermal conductivity, maximizing heat transfer by eliminating the air gap between the heat source and the heat sink caused by the irregular surfaces.

Note: This Item can not be shipped using DHL

Features

Best Thermal Conductivity
TG-8 is made for extreme performance, delivering excellent long-lasting thermal conductivity with diamond powder inside. It won't crack or dry out during usage.

Easy to Apply
Provided spreader makes it easier to apply thermal grease on the contact surface of the heatsink to improve the heat dissipation of the processor.

Long Life Span
More effective than standard silicon-based heat grease/CPU paste, providing optimum protection against CPU heat damage for a long life span usage.

Specifications

| | |
|----------------------|------------------|
| P/N | CL-O005-GROSGM-A |
| Thermal Conductivity | 4.7 W/m-k |
| Dimension | 145 x 90 x 16 mm |
| Color | Gray |
| Weight | 4 g |

| | |
|-----------------------|--------------------|
| Shelf-Life | 24 months from DOM |
| Operating Temperature | -50°C ~ 250°C |
