

# Aquacomputer RGBpx LED strip 32 cm, width 10 mm, 15 addressable LEDs

\$9.95

## Product Images

## Short Description

RGBpx compatible LED strip with individually addressable LEDs made by Aqua Computer. An Aqua Computer device with RGBpx output and a RGBpx cable is required for operation (not included in delivery). A connector at the end of the strip can be used to connect another RGBpx component consecutively.

## Description

RGBpx compatible LED strip with individually addressable LEDs made by Aqua Computer.

An Aqua Computer device with RGBpx output and a RGBpx cable is required for operation (not included in delivery). A connector at the end of the strip can be used to connect another RGBpx component consecutively.

For easy installation, four magnets are embedded into the strip. Additionally, the rear side of the strip is equipped with self adhesive coating.  
The strip can be shortened/cut after each LED, in this case no further strip can be connected.

## Specifications

---
