## Product Images

## Short Description

The world-renowned manufacturer, Alphacool, offers the Eisblock GPX a very noble and high-quality full

cover water cooler for your graphics card. The Eisblock GPX is available in two versions; An eye-catching version with a plexiglass window with RGB lighting to really show off or a simple but elegant version made of acetal.

## Description

---

The world-renowned manufacturer, Alphacool, offers the Eisblock GPX a very noble and high-quality full cover water cooler for your graphics card. The Eisblock GPX is available in two versions; An eye-catching version with a plexiglass window with RGB lighting to really show off or a simple but elegant version made of acetal.

Both coolers are based on an identical copper heat sink, which is completely nickel-plated. The surface area where the water flows is very large, so that all components that give off heat are actively cooled with water which increases performance. The 35 fins of the cooler are only 0.6 mm thick and cover even large GPUs completely. The large cooling surface is also ideal for graphics cards with HBM memory.

The optical highlight of the Plexi variant, besides the very large window, of course also the complete and integrated RGB lighting. This is compatible with ASUS Aurora Sync, Biostar VIVID LED DJ, Gigabyte RGB Fusion or MSI Mystic. But pay attention to the connection on your mainboard. You may need a Male-to-Female adapter for some motherboards.

With the Alphacool EisBlock GPX full cover water cooler for your graphics card you get a high-quality cooler with excellent cooling performance. You have the choice between a simple but noble black acetal version or a striking, wonderfully illuminated and chic plexi version with a large viewing window.

## Specifications

---

Manufacturer:	Alphacool
Top cover material:	Plastic
Cooling plate material:	Copper
Connector:	2x G1/4
Cooler model:	Complete cooler
Hint:	Compatible till 16/13mm straight, Compatible till 9/13mm angled
Hardware manufacturer:	NVIDIA
SLI compatible:	Yes

### Compatibility

- NVidia RTX 2080 FE

## Scope of Delivery

- Alphacool Eisblock GPX-N Acetal Nvidia Geforce RTX 2080 M01
- Backplate
- Mounting material
- Thermal pads
- Thermal paste
- SLI compatible module
- 2x screw plug

## Additional Information

Brand	Alphacool
SKU	AC-11665-D
Weight	4.0000
Color	Black
Vga	NVIDIA GeForce RTX 2070/2080/2070 Super/2080 SUPER
Block GPU Type	Nvidia
Block Style	Copper-Acetal
Vendor SKU/EAN	4250197116657
Special Price	\$25.99
