Short Description

The Alphacool Aurora HardTube RGB LED Ring is the perfect solution for illuminating the HardTubes or water cooling tubes. Simply slide the Aurora HardTube RGB LED ring over the tube or HardTube and it will shine perfectly. The connection is made via a 4-pin male RGB connector. The ring itself is made of pure brass. Inside the ring are 3 RGB LEDs and two O-rings. The O-rings are used to hold the Aurora HardTube RGB LED ring in its desired position and to prevent scratches when passing over the HardTubes.

Description

The Alphacool Aurora HardTube RGB LED Ring is the perfect solution for illuminating the HardTubes or water cooling tubes. Simply slide the Aurora HardTube RGB LED ring over the tube or HardTube and it will shine perfectly. The connection is made via a 4-pin male RGB connector. The ring itself is made of pure brass. Inside the ring are 3 RGB LEDs and two O-rings. The O-rings are used to hold the Aurora HardTube RGB LED ring in its desired position and to prevent scratches when passing over the HardTubes.

Using these, completely new possibilities of lighting for your own water cooling are available. The classic RGB LED strips or RGB fans can be connected to achieve a harmonious and impressive appearance. Combined with the Alphacool Eiswater liquids for the fluid, you are limited only by your imagination for the colourful

effects.

The Alphacool Aurora HardTube RGB LED rings are compatible with all common RGB controllers. They can also be used with any motherboard and their included controllers including ASUS ROG Aura Sync, ASRock RGB LED, MSI Mystic Light and GIGABYTE RGB Fusion. Depending on the connection, a suitable adapter may be required. The simplest way to control the LEDs is by using of the Alphacool Aurora RGB controller.
