

# Alphacool Aurora XPX RGB frame - Chrome

\$22.50

## Product Images

## Short Description

---

With an impressive 15 RGB LEDs evenly distributed over the XPX Eisblock CPU cooler, perfect lighting is guaranteed. The RGB controller lets you change not only the colours, but also add colour effects like gradients, blinking, slow colour changes, and much more. Many controllers also include a dimmer function. The Alphacool XPX RGB frame leaves nothing to be desired.

## Description

---

A perfectly illuminated CPU water cooler is a real eye catcher in any water-cooled gaming PC. It is the centre piece of the system, so it should really stand out. The Alphacool Aurora XPX RGB Frame is the perfect solution for illuminating the Eisblock XPX Plexi clear or satin CPU block.

It is really easy to install, just take the RGB frame and slide it over the Eisblock XPX CPU block and connect it to a suitable RGB header or controller. Perfect lighting is guaranteed with an incredible 15 RGB LEDs, which lie evenly around the frame ensuring that the light is defused evenly. With an RGB controller you can not only change the colour, but also create dynamic effects such as overflows, flashing, slow colour changes and much more. Of course, the LEDs can also be dimmed. The Alphacool XPX RGB frame is an all-rounder in RGB lighting.

With the 4-pin Male 12V RGB connector, all Alphacool RGB products are compatible with the common RGB sync technologies of all well-known motherboard manufacturers (ASUS ROG Aura Sync, ASRock RGB LED, MSI Mystic Light and GIGABYTE RGB Fusion). However, you may need an adapter cable, depending on whether the mainboard uses a male or female connector. Alternatively, you can use the Alphacool Aurora LED RGB controller, the easiest way to control the Aurora XPX RGB frame.

## Specifications

---

Manufacturer:	Alphacool
Color:	RGB
Width:	10mm
Voltage:	12 - 14VDC
Dimmable:	Yes
Power connector:	RGB 4Pol
Number of LEDs:	15

### Technical Details

- Dimensions: 75 x 75 x 17mm
- Cable length: 40cm
- power connection: RGB male
- material: POM, chrome
- number of LEDs: 15
- controlling: RGB Controller (available separately)

### Scope of Delivery

- 1x Alphacool Aurora XPX RGB frame - chrome

## Additional Information

---

Brand	Alphacool
SKU	AC-12932
Weight	0.7500
Color	Chrome
Lighting Type	LED Ring
LED Color	RGB
Vendor SKU/EAN	4250197129329
