

EK-Quantum Velocity - AMD Copper + Acetal

\$83.99

Product Images

Short Description

EK-Quantum Velocity AMD is the new high-performance flagship premium quality CPU water block for modern AMD processors. It features a fresh design that will enable a vast number of variations and options for enthusiasts and demanding users as well!

Description

EK-Quantum Velocity AMD is the new high-performance flagship premium quality CPU water block for modern AMD processors. It features a fresh design that will enable a vast number of variations and options for enthusiasts and demanding users as well!

EK Velocity series CPU water blocks embed the 5th generation of the award-winning EK CPU water block cooling engine, further tweaked for performance and optimal coolant flow! Low hydraulic flow restriction enables this product to be used in setups using weaker water pumps or lower pump speeds for added silent operation, while still achieving top performance!

The purest copper available on the market is used for the EK-Velocity cold plate which is precisely machined to a dense micro-fin structure. The contact surface itself is machine polished for a better contact with the CPU IHS. This version of the water block features a precisely machined bare copper cold plate with a CNC machined high-quality black POM Acetal top piece.

The new cooling engine is characterized by the top-integrated jet nozzle which is combined with a thicker jet plate allowing a more precise bow control. The simplified water block structure offers a more optimized coolant flow and easier maintenance.

The block is equipped with a reinforced hold-down bracket, and the enclosed mounting kit includes all the necessary mounting screws, mounting springs, an AMD AM4 backplate, rubber backplate gasket and a small

tube of Thermal Grizzly Hydronaut high-performance thermal paste. The EK-Velocity CPU water block features a universal mounting mechanism that offers error-preventing, tool-less installation supporting AMD AM4 sockets out of the box. The mounting screws are streamlined and are even smaller than before for an added aesthetical perfection.

Details

EK-Quantum Velocity AMD is the new high-performance flagship premium quality CPU water block for modern AMD processors. It features a fresh design that will enable a vast number of variations and options for enthusiasts and demanding users as well!

EK Velocity series CPU water blocks embed the 5th generation of the award-winning EK CPU water block cooling engine, further tweaked for performance and optimal coolant flow! Low hydraulic flow restriction enables this product to be used in setups using weaker water pumps or lower pump speeds for added silent operation, while still achieving top performance!

The purest copper available on the market is used for the EK-Velocity cold plate which is precisely machined to a dense micro-fin structure. The contact surface itself is machine polished for a better contact with the CPU

IHS. This version of the water block features a precisely machined bare copper cold plate with a CNC machined high-quality black POM Acetal top piece.

The new cooling engine is characterized by the top-integrated jet nozzle which is combined with a thicker jet plate allowing a more precise bow control. The simplified water block structure offers a more optimized coolant flow and easier maintenance.

The block is equipped with a reinforced hold-down bracket, and the enclosed mounting kit includes all the necessary mounting screws, mounting springs, an AMD AM4 backplate, rubber backplate gasket and a small tube of Thermal Grizzly Hydronaut high-performance thermal paste. The EK-Velocity CPU water block features a universal mounting mechanism that offers error-preventing, tool-less installation supporting AMD AM4 sockets out of the box. The mounting screws are streamlined and are even smaller than before for an added aesthetical perfection.

CPU socket compatibility:

- AMD AM4

Enclosed:

- EK-Quantum Velocity CPU water block
- PreciseMount universal CPU mounting mechanism
- EK-Velocity Backplate
- 2.5mm Allen key
- Jet J2 (0.8mm* thick)
- Thermal grease Thermal Grizzly Hydronaut (1g)

Made in Slovenia - Europe!

PLEASE NOTE:

- This product should NOT be installed with any aluminum EK Fluid Gaming parts!
- Fittings on the photos are not included in the package

Additional Info

	Copper Acetal
	G1/4
	AMD

Additional Information

Brand	EK Waterblocks
SKU	EK-QUANTUM-VELOCITY-AMD-CA
Weight	2.5000
Color	Black
CPU Series	AM4/PGA 1331
Block CPU Type	AMD
Block Style	Copper-Acetal
Vendor SKU/EAN	3831109810101
