$9.95

Product Images

Short Description

If your PSU PCI Express 2.0 - 8-pin cable is just a bit short in that larger tower or server case, then this is the solution you have been looking for. This power cable has a proprietary eight-pin male plug on one end that connects to your PCI Express video connector on your power supply with the other ends connecting to either an eight pin or 6-pin PCI Express Video connector that attaches to your graphics card. This is the perfect savior if you just need a little longer cable or an adapter to convert an 8-pin cable to a 6-pin.
