## Short Description

The Slip Stream Adjustable PWM fan is the third new version of the PWM Slip Stream series. As needed, users can adjust the PWM bandwidth manually to control the fan speed by sliding the switch on a PCI bracket, so the fan is optimized for quiet operation or highest performance. PWM function is still maintained as the general feature. Speed of this fan variation is continuously adjustable between 470 ( $\pm 30\%$ ) to 1,340 rpm ( $\pm 10\%$ ) and 740 ( $\pm 25\%$ ) to 1,900 rpm ( $\pm 10\%$ ).

## Features

---

### PWM Adjustable

Equipped with Scythe original Slip Stream PWM 120 mm PWM Adjustable fan, it allows a user to choose the fully automatic PWM feature fan speed control or alternatively adjust the PWM band range to fulfill demands from silent to high performance users!

### Performance

By reducing the dimension of the center hub and enlarging the blade surface area, high airflow is generated at low RPM.

### 4-Pin Peripheral Adapter Provided

To be versatile, this case fan comes with the 4-pin peripheral adapter.
