

BARROW Barrow LRC2.0 Compatible 5V Manual Lighting Controller

\$6.95

Product Images

Short Description

An inline micro control board for the LRC2.0 version lighting control system from Barrow. Some examples of application are the Multi color LED strips (LD2RT-50, LD2RT-100) as well as several waterblocks, or anything from Barrow with the LCR2.0 logo on it. This can control the color mode (67 colors), speed (8 Speeds), and offers full manual control. It also features an automatic memory, so whatever you have it set to, it will resume when powered on next.
