

# Thermal Monitor with Digital LED Display - Molex

\$14.50

## Product Images

## Short Description

---

This thermal control monitor allows a simpler solution to view your cabinet temperature. Can easily be powered by either a USB or 4 pin Molex plug. Both plugs are pass-thru style so as not to use up an existing power source or to piggyback on an existing device.

## Description

---

This thermal control monitor allows a simpler solution to view your cabinet temperature. Can easily be powered by either a USB or 4 pin Molex plug. Both plugs are pass-thru style so as not to use up an existing power source or to piggyback on an existing device.
