

Laser Cut Acrylic Grill 80mm - Fire Skull Reflective Finish

Special Price
\$0.99 was
\$7.95

Product Images

Short Description

These are very reflective, laser cut acrylic grills that fit over the top of 80 mm fans. If you are looking for something different and really want to dress up your case these are the grills to do it with. It is recommended to attach these grills with black push pins so as not to crack the grill with fan screws that are of variable sizes.

Description

These are very reflective, laser cut acrylic grills that fit over the top of 80 mm fans. If you are looking for something different and really want to dress up your case these are the grills to do it with. It is recommended to attach these grills with black push pins so as not to crack the grill with fan screws that are of variable sizes.

Very highly recommend for coolness!
