

WATERCOOL

# PCI Slot Pass-Through Bracket

\$23.95

## Product Images

## Short Description

Connect external components like a MO-RA radiator to your internal cooling loop with this simple pass-through bracket. There are two standardized G1/4" ports on both sides of the bracket. These are compatible with all usual fittings and quick disconnects with a male G1/4" thread.

## Description

---

Connect external components like a MO-RA radiator to your internal cooling loop with this simple pass-through bracket. There are two standardized G1/4" ports on both sides of the bracket. These are compatible with all usual fittings and quick disconnects with a male G1/4" thread.

The channels in the bracket provide a very high diameter, so it won't restrict flow rate at all. Perfectly adapted wall strength and high-quality rubber o-rings make it completely leak free. The bracket follows ATX specifications. You do not need to make any modifications to your case to connect your external components safely.

## Specifications

---

Scope of Delivery:  
1x PCI Slot Pass Through

## Additional Information

---

Brand	Watercool
SKU	WC-50601
Weight	0.2000
