

WATERCOOL

PCI Slot Pass-Through Bracket

\$23.95

Product Images

Short Description

Connect external components like a MO-RA radiator to your internal cooling loop with this simple pass-through bracket. There are two standardized G1/4" ports on both sides of the bracket. These are compatible with all usual fittings and quick disconnects with a male G1/4" thread.

Description

Connect external components like a MO-RA radiator to your internal cooling loop with this simple pass-through bracket. There are two standardized G1/4" ports on both sides of the bracket. These are compatible with all usual fittings and quick disconnects with a male G1/4" thread.

The channels in the bracket provide a very high diameter, so it won't restrict flow rate at all. Perfectly adapted wall strength and high-quality rubber o-rings make it completely leak free. The bracket follows ATX specifications. You do not need to make any modifications to your case to connect your external components safely.

Specifications

Scope of Delivery:
1x PCI Slot Pass Through

Additional Information

Brand	Watercool
SKU	WC-50601
Weight	0.2000
