## Product Images

## Short Description

Case fans help protect your whole computer investment by providing case cooling to reduce component-killing heat buildup, thus increasing the longevity of components. Now you can balance necessary cooling with noise reduction. This fans built in temperature sensor keeps your system quiet when cool and speeds the fan up when system heat increases. The 80mm SmartCool fan is up to 80% quieter than most case fans. This is a very high quality thermally controlled 80mm case fan.

## Features

---

Features:

- Built-in temperature sensor
- Variable speed: RPM increases as the temperature rises
- Double ball bearing design for extended life
- Comes with a 4-pin power connector and a separate signal connector to motherboard

## Specifications

---

Specifications:

- Fan Size 80x80x25.4mm
- Rated Voltage 12 V
- Bearing Double Ball Bearings
- Air Flow 24 - 41 CFM
- Rated Speed 1650 - 2850 RPM
- Noise 21 - 34 dB(A)
- Current: 0.09 - 0.159 Amps

Fan cable is 100% wrapped in nylon Techflex sleeving and premium heatshrink, colors of your choice.

## Additional Information

Brand	Antec
SKU	SMARTCOOL80-D
Weight	1.0000
Special Price	\$5.99
