

SilverStone Horizontal dual LCD monitor desk stand, support up to 24" Monitor - Black

\$99.99

Product Images

Short Description

SilverStone created "ARM Two" to significantly raise the value and usability of your monitors. ARM23BS is constructed with robust aluminum alloy and steel. It includes VESA Mounting Interface Standard (MIS) which fits most monitors on the market. Hassle-free adjustments can be made for height and reach to provide various viewing angles for the monitor so your view will no longer be restricted to traditional positions.
