Silverstone (SST-CP07) 180° SATA III Cable with Non-Scratch Locking Mechanism - 500mm - White

$9.99

Product Images

Short Description

With SATA Revision 3.0 compliant devices now more popular than ever, SilverStone has created two suitable cables to match the higher bandwidth requirement with the CP07 (with 180° connector) and CP08 (with 90° connector). Unlike traditional SATA cables with metal clips that lose effectiveness with repeated usage due to scratching, the CP07 and CP08 achieves secure connection by utilizing precision designed and manufactured connector. Wrapped in attractive black / white sleeve and metallic layer for EMI protection, these new cables are great companions for running SATA 6Gb/s capable devices with optimum stability and style.

Description

With SATA Revision 3.0 compliant devices now more popular than ever, SilverStone has created two suitable cables to match the higher bandwidth requirement with the CP07 (with 180° connector) and CP08 (with 90° connector). Unlike traditional SATA cables with metal clips that lose effectiveness with repeated usage due to scratching, the CP07 and CP08 achieves secure connection by utilizing precision designed and manufactured connector. Wrapped in attractive black / white sleeve and metallic layer for EMI protection, these new cables are great companions for running SATA 6Gb/s capable devices with optimum stability and style.

Features

- Metal-less locking design reduces wear on SATA connector
- Beautiful all black / white sleeved cable
- Commercial grade components with SATA 6Gb/s transmitting speed
- Metallic cable layer for EMI guard

Specifications

Model No.	SST-CP07B / SST-CP07W
Color	Black / White
Connectors	180 degree
Length	500mm
Transmitting Speed	6Gb/s

Additional Information

Brand	SilverStone Technology
SKU	CP07W
Weight	0.1000
Color	White
Cable Type	SATA Power Extension
Length	50cm
Vendor SKU/EAN	844761013806
