Silverstone SST-LSB01 RGB Light Strip Control Box with 8 Port Signal Control

$43.99

Product Images

Short Description

LSB01 is a SilverStone designed RGB light strip control box with 8 port signal control. For use in conjunction with SilverStone LS02, it easily expands the amount of lighting that one can control and solves the problem of insufficient RGB 4pin connectors. It can control light via motherboard RGB software or other RGB 4pin host. Apart from this, for those enthusiast's motherboard that lacks RGB 4pin or without another signal source, the LSB01 can still offer direct control via case switch with an included cable adapter.

Description

LSB01 is a SilverStone designed RGB light strip control box with 8 port signal control. For use in conjunction with SilverStone LS02, it easily expands the amount of lighting that one can control and solves the problem of insufficient RGB 4pin connectors. It can control light via motherboard RGB software or other RGB 4pin host. Apart from this, for those enthusiast's motherboard that lacks RGB 4pin or without another signal source, the LSB01 can still offer direct control via case switch with an included cable adapter.

Features

- Eight port RGB light strip connectors
- Includes two RGB LED light strips
- Built-in IC preset for directly changing colors
- Built-in magnetic strip and adhesive tape provide flexible install option

Specifications
