

SilverStone Premium 8-bay 2.5" small form factor NAS chassis

\$226.99

Product Images

Short Description

For users migrating to small form factor (SFF) computers with large libraries of media files, storage capacity is often a compromise that is difficult to overcome. Choosing a smaller case may require additional purchase of external storage enclosure, while choosing a larger case with extra drive bays may defeat the purpose of going SFF in the first place.

Description

For users migrating to small form factor (SFF) computers with large libraries of media files, storage capacity is often a compromise that is difficult to overcome. Choosing a smaller case may require additional purchase of external storage enclosure, while choosing a larger case with extra drive bays may defeat the purpose of going SFF in the first place.

For seasoned enthusiasts looking to downsize even further beyond the popular DS380, SilverStone created the CS280 that can pack up to nine 2.5" drives in nearly half the size of DS380! With the ability to accommodate components such as Mini-ITX motherboards, dual slot expansion card, and standard retail box CPU coolers, the CS280 can readily support most system build requirements. Equipped with two 80mm intake fans plus externally removable filter on the front, keeping everything cool and dust-free is as easy as in any SilverStone chassis.

CS280's signature feature is a group of eight individually lockable and hot-swappable drive cages for 2.5" drives. It utilizes a custom back panel PCB designed to support both SATA and SAS interface for increased compatibility with nearly all modern hard drives or SSDs. At only 11.8 liters overall, the impressively small CS280 is perfect for anyone looking to build a beautiful and even portable small form factor NAS for home or office.

Features

- Supports 2.5" hot swap hard drives x 8 with locker
- Premium aluminum front door with lock
- Individual metal key lock for each drive for extra security
- Fully supports SATA Hot-Swap function
- Mini-DTX/Mini-ITX motherboard & SFX power supply compatible

Specifications

	SST-CS280B (Black)
Model No.	--
	--
	--
Material	Aluminum + SECC + Plastic
Motherboard	Mini-ITX (170mm x 170mm) Mini-DTX (203mm x 170mm)

	External	2.5" SAS*/SATA hot-swap x 8 (Support up to 15mm)
Drive bay		--
	Internal	2.5" SAS*/SATA x 1 (Support up to 12.5mm)
	Front	80mm Fan x 2
	Rear	--
	Side	--
Cooling system	Top	--
	Bottom	--
	Internal	--
Expansion slot	PCIe slot x 2	
HDD backplane	8 port x 6Gb/s SAS/SATA	
Data transfer rate	Up to 6 Gbit/s (dependent on drive speed)	
Front door	Aluminum material with door lock	
Front panel buttons	Power ON/OFF, system reset, USB 3.0 x 2, 3.5mm stereo jack, 3.5mm Mic. Jack	
Number of key	2	
Expansion card	Support expansion card up to 4.41" (112mm), width restriction - 4.72" (120mm) Support low profile expansion card up to 8.66" (220mm) , width restriction - 2.39" (60.75mm)	
Limitation of CPU cooler	65mm	
Limitation of PSU	SFX (up to 100mm deep)	
Net weight	3.3Kg	
Dimension	221.5mm (W) x 176.7mm (H) x 301mm (D), 11.8 Liters 8.72" (W) x 6.96" (H) x 11.85" (D), 11.8 Liters	

Remark

* To use SAS drive, you must have motherboard or expansion card with hardware SAS controller.

Additional Information

Brand	SilverStone Technology
SKU	CS-CS280B
Weight	10.0000
Color	Black
Chassis Form Factor	Cube Case
Side Panel	Vented
Material	Aluminum
PSU Wattage	No PSU
Vendor SKU/EAN	844761013295
