Description

The Redline RL06 was created with the goal of exceeding user experience and expectation for affordable PC chassis. By strengthening the character line of the exterior with simple and detailed styling elements inside and out that traces its roots to the rest of the aggressive Redline series; the RL06 has stunning looks that is often only available on cases costing much more. Functionally, the RL06 does not disappoint with oversized intake mesh panel, top magnetic filter, easily accessible front filter, PSU and drive bay cover, abundant room for cable management, and plethora of fan mounting options. Advanced users will also find support for front, top and rear radiator mounting positions and water tank mounting holes to be highly useful for building liquid cooled PCs.

Features

- Stunning exterior styling with fine details
- Super clean internal look with PSU and drive bay cover
- Quick access filters for easy cleaning
- Motherboard back plate opening for quick CPU cooler assembly
- All black painted interior for stylish look
- Supports graphics cards up to 13.7" (348mm)
