$149.95

Product Images

Short Description

The Sugo series has always represented exquisiteness with its line of beautifully crafted, small but powerful SFF chassis, and SilverStone's Sugo SG04-FH is certainly an exquisite chassis.

Description

The Sugo series has always represented exquisiteness with its line of beautifully crafted, small but powerful SFF chassis, and SilverStone's Sugo SG04-FH is certainly an exquisite chassis. With the previous venerable Sugo SG03 model as the starting point, the SG04-FH improves every aspect of the former case from specification to user impression. With additional expansion slots and reversible power supply unit installation design, SG04-FH owns a superior cooling performance which can support operating dual graphic card (10.5 inch) within it. Adjustable fan positions enable users to devise their own cooling layout as required with the front door helping to reduce noise effectively. Packing with thoughtful features, the SG04-FH is truly worthy of living up to become another benchmark SFF enclosure.

Features

- *SFF Chassis with Ample Space* The Silverstone Sugo SG04B-FH SFF chassis is designed with improved and optimized layout providing uncompromising capacity to accommodate microATX motherboard, standard ATX/PS2 power supply, an 5.25" optical drive up to 210mm and four standard expansion slots for dual high-end graphics cards up to 10.5" as well as extra fifth expansion slot for greater flexibility.
- *Excellent Cooling* The Silverstone Sugo SG04B-FH features two 120mm front fans and large area meshes on side panel for efficient ventilation and effective system cooling.
- *Bottom Placed Hard Drive* The redesigned hard drive cage with rubber padding delivers enhanced cooling and better vibration absorption.
- *Side Door Flap* A convenient front door flap hides two USB 2.0 ports, two audio ports, reset button and 3.5" drive bay for a uniform look and style to the front door.
- *Top Mounted Die-Cast Aluminum Handle* Easily move your system from room to room or carry it to a LAN party with the durable die-cast handle bar on top panel.
