\$19.50

Product Images

Short Description

RGB LED strip based on highest quality Japanese LED microchips and custom design PCB with each set of 3 chip powered independently from the rest for improved failover. Custom PCB design packs 39 LED microchips in only 19"(50cm) strip. Massive light source.

Description

RGB LED strip based on highest quality Japanese LED microchips and custom design PCB with each set of 3 chip powered independently from the rest for improved failover. Custom PCB design packs 39 LED microchips in only 19"(50cm) strip. Massive light source.

The LED comes with the standard RGB 4-pin connector that can be plugged directly to motherboards that feature 4-pin RGB connectors for 12v RGB-LED, such as ASUS AURA.

Specifications

- Length: 19"(50cm)
- Width: 8mm
- LED count: 39
- Wire length: 10cm
- Connector type: standard RGB 4-pin female
