Short Description

Case fans help protect your whole computer investment by providing case cooling to reduce component-killing heat buildup, thus increasing the longevity of components. Now you can balance necessary cooling with noise reduction. This fans built in temperature sensor keeps your system quiet when cool and speeds the fan up when system heat increases.

Description

Product Details:

Case fans help protect your whole computer investment by providing case cooling to reduce component-killing heat buildup, thus increasing the longevity of components. Now you can balance necessary cooling with noise reduction. This fans built in temperature sensor keeps your system quiet when cool and speeds the fan up when system heat increases. The 120 mm SmartCool fan is up to 80% quieter than most case fans. This is a very high quality thermally controlled 120 mm case fan.

Features

- Built-in temperature sensor
- Variable speed: RPM increases as the temperature rises
- Double ball bearing design for extended life
- Comes with a 4-pin power connector and a separate signal connector to motherboard

Specifications

- Specifications:
 - Fan Size 120x120x25.4mm
 - Rated Voltage 12 V
 - Bearing Double Ball Bearings
 - Air Flow 34 - 60 CFM
 - Rated Speed 980 - 1720 RPM
 - Noise 20 - 32 dB(A)
 - Current: 0.130 - 0.201 Amps

Fan cable is 100% wrapped in nylon Techflex sleeving and premium heatshrink, colors of your choice.
