

# Noise Isolator Silver Fan and Light Controller 5.25"

Special Price  
**\$17.97** was  
**\$29.95**

## Product Images

## Short Description

Noise Isolator PWM fan controller uses one empty 5.25" bay and allows you to adjust fan speed manually in the front panel, providing the best balance between performance and noise level. The controller provides 3 separate channels and each channel (knob) can control 2 fans simultaneously. The brightness of LED back light around the fan control knob changes with the speed of the fan it controls (brighter when fan speed is faster and dimmer when slower). In addition to fan speed control, the unit is built with 2 power switches that can be used to control (on/off) 12V DC external devices such as case lights, additional fans, etc.

## Description

Noise Isolator PWM fan controller uses one empty 5.25" bay and allows you to adjust fan speed manually in the front panel, providing the best balance between performance and noise level. The controller provides 3 separate channels and each channel (knob) can control 2 fans simultaneously. The brightness of LED back light around the fan control knob changes with the speed of the fan it controls (brighter when fan speed is

faster and dimmer when slower). In addition to fan speed control, the unit is built with 2 power switches that can be used to control (on/off) 12V DC external devices such as case lights, additional fans, etc.

## Features

---

- Elegant sand blasted Aluminum front panel and Metal turning knobs
- Each channel (knob) can control 2 fans simultaneously
- Brightness of the LED backlight for each knob changes with the speed of fan it controls. i.e. brighter when the fan speed is at maximum
- Two power switches which can be used to control 12v DC external devices such as case lights, other fans

## Specifications

---

- Pulse width modulation fan speed control module
- 12V DC input
- 12V DC output x 2 (3A/12V DC power)
- 20W per fan speed control channel
- 3 channels controlling up to 6 fans
- 2 On/Off switches for lighting or other device control

## Additional Information

---

Brand	Mitron
SKU	FC-525PW-S-D
Weight	1.5000
Color	Silver
Device Type	Multi-purpose
Bay Size	5.25" Bay
Special Price	\$17.97
