Short Description

Product Details:

What would you do with extra hard drives? Using our Silicon Rubber HDD Protective Skin is the easiest and cheapest way to convert your drive for external use without spending a lot of money on metal enclosures.

This smart design protects sensitive hard drives and allows proper heat dissipation generated from the hard drive. The SR HDD Skin is easy to fit that takes only 5 seconds to install. This SR enclosure is also stackable saving desktop spaces!

For users already owning an IDE to USB convert cable or equivalent device, the SR HDD protective skin is all you need to convert a hard drive for external use. Performance PC's also offers optional IDE to USB / IDE to SATA / SATA to SATA and external power cables and brackets for converting your IDE or SATA HDD to a fully functioning external lightweight enclosure. This is also great for test setups on site and bench installs. This is a must have for all power users toolbox!

Available Options:

Internal to External Power Bracket

36" External Power Cable Sleeved

Vantec IDE to USB Cable

Vantec SATA/IDE to USB Cable with External Power for Drives

Coolmax SATA to USB Cable

Scythe Kama Connect SATA/IDE to USB Combo Cable

PCI Power Bracket - 4-Pin, 3-Pin & SATA - Sleeved

SilverStone Shielded L-SATA II Cable
