Short Description

Mod/smart proudly introduces a new LED lighting device, with 20 individual outlets for tailed LEDs. LEDs have become very popular in computer/car/home lighting and an easy to use, easy to install LED power station is a necessity. Each two pin set supplies 3.3 vdc for powering our mod/smart tailed LEDs.

Description

Mod/smart proudly introduces a new LED lighting device, with 20 individual outlets for tailed LEDs. LEDs have become very popular in computer/car/home lighting and an easy to use, easy to install LED power station is a necessity. Each two pin set supplies 3.3 vdc for powering our mod/smart tailed LEDs.

Features

- Easy installs.
- Expandable from 1 to 20 Tailed LEDs
- Single 12vdc Input provides power to 20 LEDs
- Available in 7 *TCM colors

Specifications

Includes: 1x 20 Station LED Board with clear double sided mounting tape.

*True Color Match (TCM) - An Exclusive Process which provides consistent coloring to an entire product line therefore improving aesthetics by color matching. Partnered with PrimoChill's watercooling product line, you can be sure all your wire management and cooling loop parts will perfectly match!

Please Note: All sets of two pins carry current when power is supplied to board so please keep pins from touching any metal or wires in your enclosure to prevent short circuiting the board.

Warranty: The 20 Station LED Board comes with a 1 year limited warranty.
