Short Description

Give your fancy new video card the attention it deserves with the CableMod Vertical PCI-e Bracket. With its

solid, all steel construction, this bracket allows you to securely mount your graphics card, or any PCI Express card, vertically inside your case.

Description

Give your fancy new video card the attention it deserves with the CableMod Vertical PCI-e Bracket. With its solid, all steel construction, this bracket allows you to securely mount your graphics card, or any PCI Express card, vertically inside your case.

It features a quality powder coated finish that matches most cases perfectly, and can be assembled and installed in minutes. Best of all, it can be installed in virtually any case with 7 free PCI-e slots, and does not require any modification or voiding of your case's warranty!

Included inside the box is a quality, high-speed PCI-e riser cable that enables you to connect your graphics card to your motherboard, as well as two specially designed DisplayPort cables which connect to your monitor.

NOTE: This bracket effectively extends the length of your PCI-e card by 3.1cm. Please make sure there is enough clearance in your case before purchasing. This bracket is does not work with graphics cards with 3-slot PCI-e I/O shields.

Specifications

Here's what you get inside the box:

- 1 x Vertical PCI-e bracket
- 1 x PCI-e riser cable
- 2 x DisplayPort 1.4 cables (1.8m)
- 7 x Screws
