

A.C. Ryan

HeatShrinkz 9mm (3/8") - UV Reactive Blue Heatshrink

\$0.95

Product Images

Short Description

Product Details:

9mm recommended for 3 to 6 wire cables - molex cable, AUX cable, sleeving ends, etc. tip: you can also heatshrink a few cables together such as a Molex and a fan cable, or 2 CCFL cables together.

Cool UVBlue glows in UV lighting.

Specifications:

- Heatshrinkz before shrinking size = 16mm
- Heatshrinkz after shrinking size = 9mm
- *** Heatshrinkz price is per ONE FOOT ***

You know them already - heatshrink tubings - you've seen them used in professional factory made cables, also often used together with sleeving, we brought them to you in our FlexSleeve Kits - now AC Ryan brings you HeatShrinkz in Black & UVcolors! [edit] yes, we're still in our UVactive fever!!!

Perhaps you've got a big sleeving job coming up and need more HeatShrinkz.

Perhaps you'd like to HeatShrinkz 'em all instead of the FlexSleeve - *your style, your choice, your mod.*

Already tried, tested and used by many in the successful FlexSleeve Kits, we've got lotsa requests from you guys to bring out more HeatShrinkz and get them sold sperately - well here it is. A range of 5 sizes and 4 colors.

UVactive™ HeatShrinkz™ that glows under UV lighting certainly adds some splash to your professionally managed, neatly cabled system.
