Short Description

The optimal attachment for the Laing DDC pump. This attachment is thus conceived, so that you may exchange the conventional top cover of the Laing DDC pump with a new one, and thus G1/4" connections are available. By means of the uncoupling sets (category: pump decouplings), the Laing can be mounted completely decoupled in any 3,5"-shaft, for example at the bottom side, by means of the standard uncouplings or even better, it can be installed in place of 80mm fans.

Description

NOTE: THIS TOP IS COMPATIBLE WITH THE REV.2 RES TOP ATTACHMENT (13116)

The optimal attachment for the Laing DDC pump.

This attachment is thus conceived, so that you may exchange the conventional top cover of the Laing DDC pump with a new one, and thus G1/4" connections are available. By means of the uncoupling sets (category: pump decouplings), the Laing can be mounted completely decoupled in any 3,5"-shaft, for example at the bottom side, by means of the standard uncouplings or even better, it can be installed in place of 80mm fans. Also for the attachment any position is possible, you may complete your projects using your fantasy. The attachment has also 5mm LED drillings for Case Modders. A further opening is provided for the optionally available water tank. The attachment can be converted into a complete water tank, also all the decouplings are available.
