Short Description

The inside of a computer case is often covered in dust. More importantly, dust can settle inside unoccupied PCI and RAM slots. Over time the dust build-up can become significant enough to cause contact problems with newly installed PCI cards and RAM memory.

Description

The inside of a computer case is often covered in dust. More importantly, dust can settle inside unoccupied PCI and RAM slots. Over time the dust build-up can become significant enough to cause contact problems with newly installed PCI cards and RAM memory. With this advanced slot protector kit not only are your common PCI and RAM slots protected but also the newer PCI Express x 1 and PCI Express x 16 slots found on the newest motherboards are also protected. Additionally, this slot protectors are UV reactive which makes this the perfect accessory for windowed cases and UV lighting!

Features

- Easy to install just snap in!
- Great for case mods
- Protects PCI, PCI-E, and RAM slots
- Clear in light and slight blue color in dark under UV

Specifications

- RAM slot Protectors x 3 pieces
- PCI Slot Protectors x 3 pieces
- PCI-E x 1 Slot Protectors x 2 pieces (PCI-E x 4 compatible)
- PCI-E x 16 Slot Protectors x 2 pieces
