Short Description

The Constructx Screwz can be used with AC Ryan's Cubes, AcrylPanels, MeshxPanels, AluPanels. Naturally other panels (aluminium, steel, wood etc) from other suppliers or DIY shops can be used too - use your own discretion

Description

The Constructx Screwz can be used with AC Ryan's Cubes, AcrylPanels, MeshxPanels, AluPanels. Naturally other panels (aluminium, steel, wood etc) from other suppliers or DIY shops can be used too - use your own discretion

Constructx Screwz which have larger surface of flat head. The larger flathead surface clamps panels to the surface of the Constructx Cube for a more steady construction.

Note: Those of you familiar with the Acryl Casing will know this Constructx™ Cube - it's this Constructx™ Cube that holds all the sides of the Acryl Casing together to form the casing. This construction method has been well tested and proven with the Acryl Casing design.

TIP: Use in combination with Constructx BayColumn510 to construct your own casing.

Specifications

- Screw thread size M3
- Screw thread length 5mm
- Packs of 10 black screws

Note: screw length should be between 3mm to 5mm more than the thickness of the panel/sheet used.

Example:

- 1mm panel = screw length min. 4mm / max. 7mm
- 2mm panel = screw length min. 5mm / max. 8mm
- 3mm panel = screw length min. 6mm / max. 9mm
- 4mm panel = screw length min. 7mm / max. 10mm
- 5mm panel = screw length min. 8mm / max. 11mm
- 6mm panel = screw length min. 9mm / max. 12mm
- 7mm panel = screw length min. 10mm / max. 13mm
- 8mm panel = screw length min. 11mm / max. 14mm
- 9mm panel = screw length min. 12mm / max. 15mm

Which AC Ryan Constructx Screwz to use?

- ACR-CX30796 M3/9mm = 3 to 6mm panels
- ACR-CX31038 M3/12mm = 6 to 9mm panels
