Silverstone FT01 Fortress Series Aluminum Mid-Tower Chassis - Silver w/ Window

$224.99

Product Images

Short Description

Product Details:

More than two years after the introduction of the world' s first uni-body PC chassis, the SilverStone Temjin TJ07, a new product line was created to extend this unique construction further into other applications. The first model for this line is the Fortress FT01, which sports the same super strong uni-body frame as its predecessor but with even more sleeker profile thanks to its smaller size. Comprised of modern touches such as quick release drive cages and dual 180mm fans, this case is easily the top choice for anyone looking to assemble a top of the line midsize system.

Features:

- Uni-body frame construction from the flagship Temjin TJ07
- Artful, understated design with excellent ergonomics
- Dual 180mm silent fans included for outstanding cooling and quietness
- Minimal use of rivets for maximum serviceability
- Highly flexible drive storage options with hot-swappable SATA adapter

Remarks:

FT01 can support 10.5" consumer level graphics cards.
The support for this type of cards does not require HDD cage to be removed.

FT01 can support 12" workstation level graphics cards.
To support such long cards, the middle HDD cage must to be removed.

Graphic card length reference:
NVIDIA Quadro FX5600 / AMD FireGL V8600/8650 - 12"
NVIDIA GeForce GTX280/260 - 10.5"
