Short Description

Over the years, Prolimatech PK-1 has become one of the hardware testers favorite. It is not hard to see why. PK-1 is a premium grade of thermal compound that is easy to spread and is reliable throughout the year. It will not dry out while continuing to provide good heat transfer from your CPU to your heatsink base. Performance-wise, Pk-1 is a contender for the top spot as it beat other major brands of thermal compound in the market. To maintain top condition, we highly recommend reapplying PK-1 every year.

Note: This Item can not be shipped using DHL

Features

- Excellent long-term stability
- Non-electronically conductive
- Non-corrosive
- Easy to apply and less to use
- Low dry-out

Specifications

Specific Gravity:	3.2g/cm3
Adhesiveness:	310000Cps
Thermal Conductivity:	10.2 W/m -C
Thermal Impedance:	0.017 C-in2/W
Material Specifications:	Al 60~85 wt% ZnO 15~25 wt% Oil 12~20 wt% Antioxidant 0.5~2 wt%

Additional Information

Brand	Prolimatech
SKU	PT-PK-1G-D
Weight	0.0500
TIM Type	Paste
Special Price	\$0.50
