## Product Images

## Short Description

---

The BlueStar LED fans are high quality, LED colored and silent cooling fans for the PC gamer and PC enthusiast. Based on the original BlueStar fan blade design these new LED series are destined to be a big hit. Top of the line components and features are applied to build these powerful LED fans. Included is a PWM auto fan speed control and for the ones who like to keep control in their own hands. To make the BlueStar fan series extra silent we have included 4 rubber anti-vibe mounts to install the fan and stop any fan vibration. Trust the brand with the industry leading experience and 3-year warranty, Spire!
