Short Description

Product Details:

The RedStar LED fans are high quality, LED colored and silent cooling fans for the PC gamer and PC enthusiast. Based on the original Star fan blade design these new LED series are destined to be a big hit. Top of the line components and features are applied to build these powerful LED fans. Included is a PWM auto fan speed control and for the ones who like to keep control in their own hand we have also included PCI manual fan speed control unit. To make the RedStar fan series extra silent we have included 4 rubber anti-vibe mounts to install the fan and stop any fan vibration. Trust the brand with the industry leading experience and 3-year warranty, Spire!

Main features:

- Special fan blade shape and spokes design, ultra silent operation
- 4 fire-red LED`s installed
- Superior airflow and High air pressure
- PWM fan auto fan control included
- PCI slot manual fan speed control included
- Sleeved wires for better airflow, and neat appearance
- UV-Reactant, great addition to any pc system

Compatibility:

The RedStar LED fans are compatible with the ATX, MICRO and MID-ATX PC Cases.

Product Includes :
- User manual
- LED fan unit
- 4 Anti-vibe screws
- PCI fan speed control unit

Product Specification

Fan Dimensions	120X120X25 mm

Voltage	12V
Bearing	Sleeve bearing
Connectors	4 PIN PWM (2510)
Noise Level	19~34 DBA
Air Flow	66.78 CFM Max.
Application	Power supply fan,second case fan or other purpose
Accessories	4 pcs rubber vibe-screw /PCI speed control
Fan Discreteness	Black square ball fan + PWM/PCI Speed control
Fan Color	Black frame+Red LED
Fan Speed	600~1800 rpm
Fan Current	0.2A
Fan Power	2.4W
UPC Code	6943051205618
