Short Description

Product Details:

The all new Air Force LED fan series are high quality, LED colored and silent cooling fans for the PC gamer and PC enthusiast. These fans are equipped with pre-installed silicon rubber anti-vibration pads to make the fan even quieter! Top of the line components and Nano Bearing technology guarantee a high quality performance fan! As an extra the version of the fan is equipped with Crystal blue LEDs. This all new fan design will make a great addition to any PC! Trust the brand with the industry leading experience and 5-year warranty, Spire!

Main features:

- Special fan blade shape and spoke design, ultra silent operation
- Nano precision bearing for longer MTBF life time!
- 4 Crystal Blue LED' s installed
- Superior airflow and High air pressure
- Silicon rubber anti-vibration pads
- Sleeved wires for better airflow and neat appearance
- 4 PIN PWM (2510) connector
- UV-Reactant, great addition to any pc system
- Quiet!Only 10~22dBA@ 62.53CFM Max.

Compatibility:

The Air Force 120mm LED fans are compatible with the ATX, MICRO and MID-ATX PC Cases.

Product Includes :

- User manual
- LED fan unit
- 4 Anti-vibe screws

Product Specification

Fan Dimensions	120X120X25 mm
Voltage	12V
Bearing	Nano precision bearing
Connectors	4 PIN PWM (2510)
Noise Level	10~22dBA
Air Flow	62.35CFM Max.
Application	Case fan or Replacement fan for CPU cooler
Accessories	Screw 4PCS
Fan Color	Black frame + Blue LED
Fan Speed	600~1500 RPM
Fan Current	0.18A
Fan Power	1.44 W
Air Pressure	1.76mm-H2O
Fan Weight (G)	108 g
Support	70.000 hrs
UPC Code	6943051205991
