Short Description

This pump sets new standards for PC cooling. Ultra silent operation and excellent performance define this pump. The operating speed is continuously variable; extensive control and monitoring functions ensure flawless operation.

Description

This pump sets new standards for PC cooling. Ultra silent operation and excellent performance define this pump. The operating speed is continuously variable; extensive control and monitoring functions ensure flawless operation.

Specifications

- Compact dimensions (identical to the Eheim 1046 230 V)
- All connections and control elements are integrated into the pump
- High-quality all-ceramic bearing
- Comfortable de-aeration mode
- Automatic monitoring by rpm-signal
- Frequency-dependent rpm-signal
- Pressure head: 3.5 m and more
- Continuously variable speed of rotation with simple overclocking option (40 - 80 Hz)
- Low noise and low power consumption (2 - 4 W)
- Gentle soft start-up
- Rotation monitoring with automatic soft start-up
- Suitable for permanent operation (including use in servers)
- Operates on 12 V DC via standard Molex connector

Included:

- 1x Watercool Eheim 12V
- 1x Pre-mounted Eheim adaptor on G1/4" (pressure side / outlet)

Additional Information

Brand	Watercool
SKU	WC-30050-D
Weight	1.5000
Color	Black
Pump Type	Eheim
Pump Voltage	12 VDC
Special Price	\$76.46
