

# Alphacool Lighttower LT- Edition 160mm (DC12-260/400)

\$34.50

## Product Images

## Short Description

The Alphacool "Lighttower" reservoir leads to a new way of design and function. Though most reservoirs are only compatible with one or few pumps, this reservoir can be used with multiple pumps or be used even without a pump. This maximum of flexibility comes from the intelligent construction. If the reservoir needs to be fixed with screws, there are already 4 M4 threads available in the bottom of the reservoir (screws must be ordered separately)

## Features

---

Type of reservoir: Tube reservoir  
Pump compatibility: DC12-260/400  
Measurements: 152 x 55 x 50mm - D=50mm  
Material: POM / Plexi  
Color: black / transparent  
Thread: G1/4  
Features: Removable anticyclone  
Volume: app. 170ml

## Specifications

---

**Content of delivery:**

1x Reservoir  
1x Pump adapter for DC12-260/400

## Additional Information

---

Brand	Alphacool
SKU	AC-15065-D
Weight	2.5000
Color	Clear
Reservoir Type	Tube Res
Tube Res Length	160mm
Pump Type	Other
Vendor SKU/EAN	4250197150651
