Reeven Twila RGB Strip

Special Price
$14.45 was
$16.50

Product Images

Short Description

TWILA RGB is a full color RGB LED light strip with a total of 21 high quality 5050 LEDs. By simply connecting the strip to the motherboards RGB 4-pin header, it can be synchronized and controlled by the motherboards software. Suitable for a wide variety of surfaces, Twila RGB incorporates magnets and comes with a set of 3M stickers that can be attached to the back of the strip. This allows for flexible placement within your PC case as well as easy re-positioning or moving of components to different builds.

Description

TWILA RGB is a full color RGB LED light strip with a total of 21 high quality 5050 LEDs. By simply connecting the strip to the motherboards RGB 4-pin header, it can be synchronized and controlled by the motherboards software. Suitable for a wide variety of surfaces, Twila RGB incorporates magnets and comes with a set of 3M stickers that can be attached to the back of the strip. This allows for flexible placement within your PC case as well as easy re-positioning or moving of components to different builds.

Features

Colorful & Bright
A total of 21 high quality 5050 LEDs light up your rig, evenly and uniformly illuminating the entire interior.

Easy & Convenient
A combination of Magnets and 3M stickers on the back of the strip allow users to position it anywhere in the case.

Durable & Flexible
The slim and chainable strip is made out of long lasting Polyurethane/PU, preventing it from breaking or cracking.
