Optimized design for serviceability

Short Description

Do you consider yourself a "Pro-modder"? Well, if you want the best, this is our most premium heat gun offering who's quality shines in spades!

The Master Appliance EC200 Ecoheat Heat Gun is the perfect tool for all your electrical projects and computer modding especially where heat shrink is used. Face it a hair dryer does not get hot enough to reduce heatshrink and a lighter just burns and discolors it. If you are serious into sleeving your computers then this is the tool for you.

Description

Do you consider yourself a "Pro-modder"? Well, if you want the best, this is our most premium heat gun offering who's quality shines in spades!

The Master Appliance EC200 Ecoheat Heat Gun is the perfect tool for all your electrical projects and computer modding especially where heat shrink is used. Face it a hair dryer does not get hot enough to reduce heatshrink and a lighter just burns and discolors it. If you are serious into sleeving your computers then this is the tool for you.

This heat gun features 3 heat settings, 110° & 930°F. It is lightweight (less than 2 lb) and easy to hold at any angle for long periods of time, eliminating operator fatigue. Built-in hand guard protects hands and fingers. Recessed switch guards against knocks and bumps. 3-wire grounded cordset provides a positive grounding system for user safety. UL and CUL listed and approved for user safety. Thermoplastic case for high impact durability. Very stable built-in stand allows user to set heat gun down in an upright position. Applications include: Activate adhesives, bend plastics, dry parts, loosen rusted fittings, melt solder, shrink plastics, shrink packaging, shrink tubing and many other applications. 120V, 10 amps, 1200 watts.

And much, much more

- ✓ Comfortable
- ✓ Efficient
- ✓ Rugged
- ✓ Reliable

Lightweight for Handheld Use

At just 1.6 lbs, this heat gun is easy to hold for extended periods of time, reducing operator fatigue

Easy Turn Temperature Dial

Dial in your heat guns temperature from 100F to 930F, making it suitable for a variety of heating jobs

One-Year Quality Pledge

Rest assured knowing we warrant this product to be free from defects in materials and workmanship for one year

About Master Appliance Corp:

Located in a modern manufacturing facility in Racine, Wisconsin, we introduced our industrial quality heat gun to the worldwide marketplace in 1958. In 1985, we introduced high-quality butane powered soldering iron/heat tools to the North American marketplace. Today our heat tools are used for drying, heating, welding, shrinking, soldering and for many other applications where heat is the need. With six decades of experience, we don't just make heat tools, we make heat tools BETTER.
