Short Description

Product Details:

Use this small and handy aluminum enclosure to make a 2.5" laptop hard drive portable. This enclosure uses the fast USB 2.0 interface found on most new computers.

Features:

- Can be used with 2.5-inch internal IDE drives (such as hard drives) - 9.5mm Maximum thickness
- USB 2.0 interface - USB 1.1 compatible
- Up to 480mb/sec.

- Plug and Play
- Hot-Swappable
- Super slim, lightweight and portable
- **Draws power from your additional USB port**
- Compatible with most Mac & PC computers
- Weight of the USB drive is around 7 oz. (with hard drive installed)
- Dimension: 130x 75x 12mm

System and other requirements:

- Support USB 1.1 on Window 98/98SE/ME/2000/XP and Mac O/S 8.6 and up
- Support USB 2.0 on Window 98SE/ME/2000/XP and Mac O/S 10.x.
- One available CD-ROM drive for software installation
- 16MB RAM
- One more available USB port (either USB 1.1 or USB 2.0)

Package includes:

- Aluminum USB 2.0 2.5" HDD Enclosure (Silver)
- USB Cable (A-mini B)
- Software CD
- Hardware and Software Installation instruction
- Screws
